

Homework — Day 3

AI doesn't just write. It sees, speaks, sings, and directs.

Theme: Multimodal Magic • Time: 60 min

YOUR MISSIONS

01 Voice clone

Set up an ElevenLabs account. Clone your voice with a 30-second recording. Have it read your Day 1 origin story.

02 Image challenge

Generate 5 versions of the same subject using different styles: photo-realistic, anime, oil painting, low-poly 3D, hand-drawn. Notice how one keyword changes everything.

03 3 real interviews

Talk to 3 real humans about your problem. Not friends who'll be nice — people who actually have the problem. Text, call, or in person. 5 minutes each.

REFLECTION — WRITE, DON'T THINK

☐ Which style worked best for your project vibe?

☐ What surprised you in the 3 interviews?

☐ Did anyone say something that made you want to change your idea?

Post one AI-generated image on your Instagram or WhatsApp status. Don't tell people it's AI. See who notices.
