

Homework — Day 6

The moment strangers start caring is the moment you have a business.

Theme: First Users • Time: 75 min

YOUR MISSIONS

01 Publish a Custom GPT

Make it public. Share the link. Aim for 5 uses tonight.

02 20 DMs

Personalized. Track opens & replies in a Notion table.

03 Post the build story

One tweet or IG post. Not 'buy my thing.' Story: 'I'm 15. Here's what I built this week and why.'

REFLECTION — WRITE, DON'T THINK

☐ What did people ACTUALLY use your GPT for (vs what you designed)?

☐ Which DM got the fastest reply? Why?

☐ What was the hardest part of asking?

BONUS ROUND

Cold-message one 'hero' — a founder or creator you admire. Ask for one specific 5-minute favor. You'll be shocked how many say yes.
